## Cohesion Policy 2007-2013 • Spain

### EU-25: Convergence and Regional Competitiveness and Employment Regions 2007-2013

The current programming period will come to an end in December 2006. The Commission, the Member States and the regions are preparing for the new programmes for 2007-2013. The renewed cohesion policy and its instruments constitute about one third of the EU budget. Priority is given to less developed Member States and regions. The new policy will aim to promote growth-enhancing conditions for the Union's economy and will focus on three new future objectives: convergence, competitiveness and cooperation.

|   | Convergence   |             |                         | Regional Competitiveness and Employment |                 | European Territorial Cooperation | Total          |

(1) - Comparisons need to be made with great caution given the change in regional eligibility, and the number and nature of the objectives in the two programming periods.  
 - The 2000-2006 amounts have been corrected to match the 2004 prices (as in the case of the financial perspectives 2007-2013).  
 - Figures are net of allocations for the rural development and fisheries instruments in both periods.
